Note: Please do NOT add markers that ASK for information, only add markers that PROVIDE information.

This is so that this map remains uncluttered and useful for those needing the information.

Note to the person/people who are making markers with text like "City Park" or just addresses with no information: Please stop. The page takes a long time to load because there are lots of markers on the map. The map is *a map* and has that sort of information on it already; markers are not needed. Thank you.
